

# Next Education unveils the largest and most comprehensive school community App: LearnNext

**Next Education India Private Limited** recently launched the most comprehensive and user-friendly school community application, LearnNext. This app enables its users to enjoy a convenient and immersive on-the-go learning experience. Now, one can avail its advanced features like asking a question with voice, or a photo, or in text. High quality content like lesson summaries and references, knowledge world — videos, articles, interviews, project ideas are available on mobiles and tablets. The best part is, the app is free of cost.

Available  
for classes  
VI to X

Beas Dev Ralhan, CEO, Next Education India Pvt Ltd said: “The newly-launched application is an extension that is developed with the sole objective of making the arduous process of learning easier for students. Owing to the fact that smart phone technology has penetrated deeply into the lives of students, we decided to develop the app to get LearnNext’s most useful features onto the Android platform. Owing to this platform’s popularity, we wish that many users can access it through their mobile anywhere anytime.”
