

Next Education ranked among the 25 Best E-Learning Companies Globally

Hyderabad, July, 03, 2013: Next education India Pvt Ltd, one of the leading E-learning Technology companies in India, has been ranked among “25 Best E-Learning Companies” at the “Global E-Learning Awards conducted by World Education Congress. This prestigious award was given by World Education Congress on June 28, 2013 which is endorsed by prominent industry thought leaders.

With the help of this forum, The World Education Congress examines modern as well as traditional knowledge system to further explore how education can help develop mental, emotional and physical skills to help facilitate personal excellence as well as psychological and Socio – economic wellbeing, in the challenging times the world faces today. The Congress brought several Global Personalities in Education and Academics under one roof.

On winning this global award, Beas Dev Rahlan, CEO, Next Education said, “ It’s a great honour for Next Education to be in 25 Best E-Learning Companies Globally and this is a clear reflection of our world class products and services that we offer to schools and students. Within a short span of five years, we have been able to reach this milestone and our committed team will continue to develop more interactive, easy to learn solutions and gives a next generation learning experience for students”

"Next Education partners with 5,000 schools and reaches about 5 million students across India. The company has a range of e-learning products customized for every need, be it school or home environment. Our research and development teams ensure age-appropriate content, innovative technology solutions, and relentless focus on the student and teacher." says Sameer Bora, VP - R & D, Next Education India Pvt Ltd. in an email interaction to NRIPress.com.

Next Education has created groundbreaking products that are transforming the lives of students (5 Million+) studying in their partner schools (5000+). The company caters to schools, students and teachers. The company has invested millions of man-hours to create in excess of 10,000 learning modules that account for more than 1,000 hours of classroom teaching in the K12 segment.

THE CONGRESS FOCUS:

To influence the evolving culture of education and educational pedagogy, with the objective of deep systemic change.

- To build on a vision and strategies for Higher Education Institutes.
- To Provide exposure to latest education tools, technologies and Solutions.
- To encourage collaboration and partnership among Institutions.
