

## **Next Education's Innovative Learning Solutions for KG-Class12 Students**

TeachNext is a E-learning solution that combines the best of the hardware, software, content and service that delivers new-age technology and traditional classroom teaching. TeachNext offers advanced interactive tools and virtual activities to ensure that the teacher is able to explain and illustrate concepts using life-like animations & engrossing voice-overs. Renowned Content providers like Britannica, BBC Motion Gallery, Algoodo are associated with Teach Next.

**LearnNext** - Individual learning solutions for students: A breakthrough educational concept from Next Education has made it easier for students to understand complex topics, problems and theorems by creating a learning system that is interactive, intelligent, independent and focused on self-learning.

**NextLab** - For English, Science and Maths - for hands-on learning: The Next Education Labs are innovative Science, Language and Maths hands-on learning options for schools in India. They offer a wide coverage of subjects like Physics, Chemistry, Biology and Environmental Sciences. The solution is focused on developing higher order thinking skills in children. The hands-on learning kits are targeted towards stimulating young minds.

**NextERP** - For automated school management: NextERP is a School Administration system that helps schools to automate various critical operations like admissions, fee management, parent-teacher-student communication, managing student records, examination and results management.

**Next Learning Centre** - For personalized After School Learning: Next Learning centre is one of the revolutionary steps taken by Next Education to create a more effective personalised classroom and bring back the joy of 'After School Learning'. It is the first after-school learning centre of its kind, where every child has a personalised classroom - Mi Class.

**About Next Education:**

Next Education is a technology-driven education enterprise that started in 2007. The company offers innovative learning solutions for the k-12 segment across CBSE, ICSE, IGCSE and 23 other Indian state boards in 8 languages. The content has been created by the company's in-house content development team using contemporary learning design principles with its proprietary Next Learning model and has undergone rigorous testing on and off the field. Next Education has created ground-breaking products that are transforming the lives of students (5 Million+) in their partner schools (5,000+). The company caters to schools, students and teachers. The company has invested millions of man-hours to create in excess of 10,000 learning modules that account for more than 1,000 hours of classroom teaching in the K12 segment. Each of the modules created by the company's in-house content development team has been designed using contemporary learning design principles with its proprietary Next Learning model and has undergone rigorous testing on and off the field. With excellent onsite service support, periodic teacher training and management reporting on content usage, Next Education aims to bring the future of education to the schools in our country.
